

The original drawing of C.S. 1790 performed by O.H. Meyer in 1946, cannot be located.

The 1958 survey performed by Fred Lemke looks as though it may have been erroneously assigned C.S. 1790. There is a reference on the Lemke survey to C.S. 1790, consequently, it cannot be C.S. 1790.

In 1982, the Lemke survey was assigned C.S. 1790-A to help eliminate the confusion and to help researchers recognize the existence of the original survey.

C. S. No. 1790 Date Filed 7/11/1946
