NARRATIVE

This map has been prepared in order to show said Lot Line Adjustment. Monuments found were set previously in CS 4143. The N 1/16 corner, which is the westerly northwest corner of TL 300, was not located for this survey but its position was computed from a 1967 BLM survey. I had previously tied into said BLM survey for CS 7702 and was able to orient to that survey for this work. Information for Parcel A of TL 801 was computed from found monuments by projection. It is shown for information only.
